All personnel that took the Pumper Driver Operator Pro-Board Cert received their certification or their failure letter. A few members do need to retest. It is expected that we will have at least 80% of the drivers Pro-board certified by the end of the year. I would like to commend the drivers who took all the training and participated in the Pro board testing,

they did a great job! There was over 50 hours of training, preparation, and testing involved in this process. With these certifications, our personnel will be certified to a National Standard, which is a commendable accomplishment for the Department and the Township.

Rescue is back in service and painted. It should be noted this is the first time in a number of years that we have matching apparatus with the Department paint scheme of black over red.

ISO rating evaluation is occurring in August. Deputy Hoffman and I are working to gather the necessary info.
