

WINTER WEATHER TIPS

As we enter the 2019 winter season, Newport Township is making some suggestions that will help make coping with the weather a little easier for residents and Township employees.

1. When snow accumulates, our Street Department will work diligently to clear the streets in a timely manner. Citizens of Newport can help by moving vehicles from roadways so that plows can move snow completely thereby restoring the parking lanes while clearing the driving lanes of our streets.
2. Sidewalk snow must not be shoveled onto the streets.
3. Ensuring that sidewalks are safe is a serious responsibility. Residents are encouraged to clear the sidewalks quickly to prevent hazardous conditions.
4. Helping neighbors who are physically challenged is not only a nice thing to do, but will help build friendships. It's nice to be nice!

Your cooperation will be truly appreciated.

Sincerely,

Peter Wanchisen

Township Manager
